## **General photography and filming policy.**

We want our visitors to enjoy the shopping experience and we are happy for you to take photographs and film your family and friends. However, we also need to protect the security and privacy of staff, retailers, and members of the public within the Shopping Centre.

Below explains what kinds of photography and filming is acceptable during your visit.

You may take photographs of and film;

- your family and friends
- other people who give you their express permission
- the shopping centre's public mall areas (i.e. the public areas of the building and its architecture, season decorations or public events held, but not the non-public areas of the building, including retail shopfronts, window displays, or our security systems and procedures.

Authorized photographs and films must only be taken in public areas and be for your personal, private, non-commercial and lawful use, and must otherwise comply with this policy. If you want to take photographs or make films for commercial purposes or for purposes other than your own personal and private use (this includes uploading to social media, video sharing and streaming platforms) you must first obtain permission from Centre Management.
